Original figures from the Robotic Systems Threat Model, by Thomas Moulard, Juan Hortala, Xabi Perez, Gorka Olalde, Borja Erice, Odei Olalde, and David Mayoral. Original OSRF attribution; CC BY 3.0 except where otherwise noted. Source revision 93a415bf928751d37fce6f83215c521658e20c93. Figures are resized for paper; content is unchanged. The source sometimes repeats inaccurate image alt labels, so filenames identify each figure. Enlarging a raster does not improve its underlying detail.

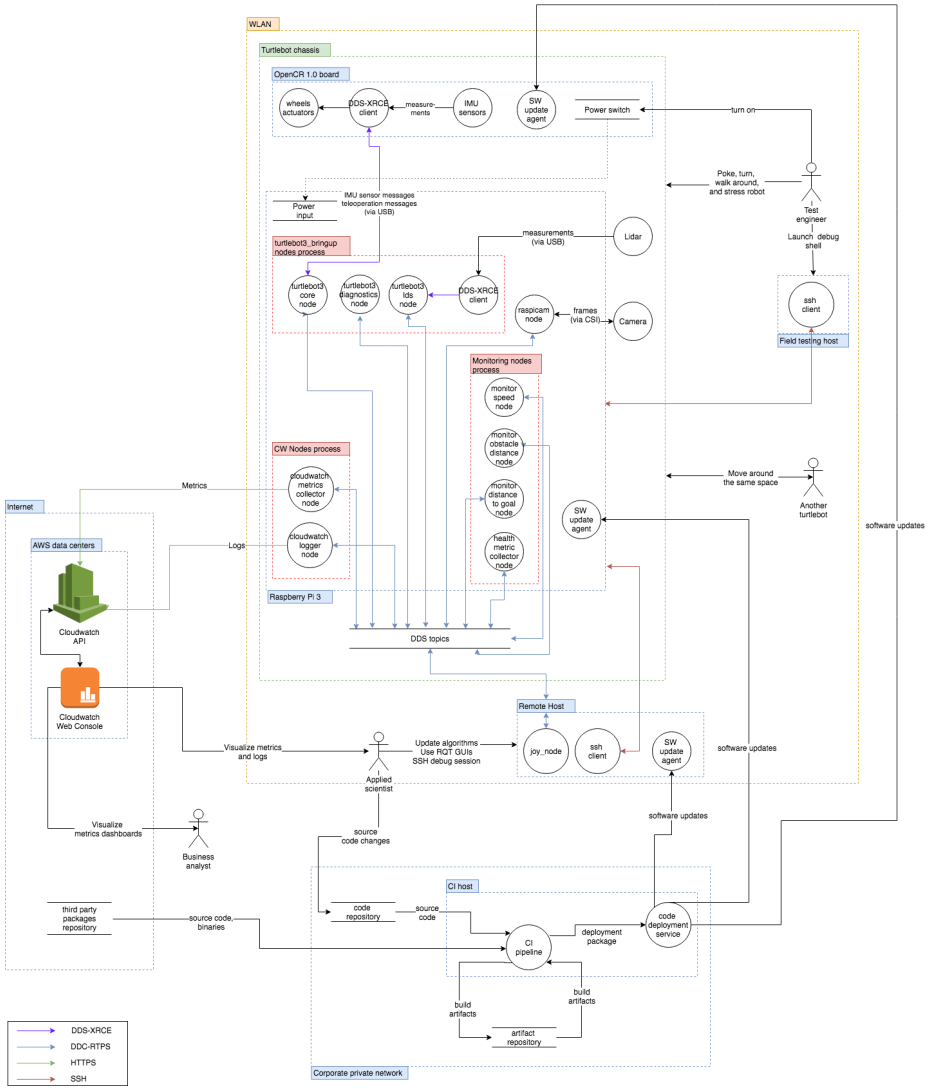

Print separately in landscape at actual size; use the matching numbered figure in the portrait reader. Redrawing dense figures is part of the proposed handbook revision. CC BY 3.0.
